- **Sunday, May 6, 2018 –Volunteers needed for CN Cycle for CHEO**  
*On Sunday, May 6, 2018, the Children's Hospital of Eastern Ontario (CHEO) will be hosting the CN Cycle event in support of oncology care and research at CHEO. Participants will be cycling/in-line skating/walking in the 70KM/35KM/15K/5K/2K courses and raising funds for this extremely important cause.*

*Childhood cancer is rare, yet every year at CHEO there are approximately 75 new diagnoses. Children, youth and their families need CHEO to get them through the treatment, uncertainty and fear that comes with cancer. You can also make a difference in this battle. Thanks to advancements in research, children with leukemia now have a cure rate of over 90 percent. The financial support from donors in communities like ours has made this success possible. While there is more work to be done, this progress provides hope and optimism for researchers at CHEO working toward discoveries for many different cancers. Your donations enable them to carry on this vital work.*

In order to keep the over 3000 participants and to ensure they have an enjoyable ride, I am recruiting for over 500+ volunteer positions. If you or someone you know would like to give back to the community in a meaningful way (and help out a fellow curler) please register or email me should you have any questions. There are some great roles perfect for high school students who may require additional community hours.

Every little but helps.

To register as a volunteer (or if you would like to participate that is great too)
